Why Ural?

The Ural Mountains is an ancient and mysterious land. Far beyond the borders of Russia, they are famous for their untold wealth and beauty, their creations of local masters, picturesque rivers, rich hunting grounds and ski slopes. The power of Russia grew at the Demidov factories, at gold and semiprecious mines, in stone-cutting workshops.

The study of the amazing land for many has become not only informative, but also very interesting. Bazhov places, Be it Deer Streams nature park, mysterious Arkaim or, the famous Kungur cave – all these excursions organized by the Sputnik travel agency are very popular among Russians and foreign guests.
